
PROFESSIONAL PROFILE

CAREER SUMMARY & CURRENT RESPONSIBILITIES

Bonny Snyder has over twenty years of experience in the areas of land and investment real estate, property management and risk management services.

Bonny began her business career in a niche insurance business where she acquired a myriad of skills working with both national clients and international business associates. As President of International Claim Services Ltd. (“ICS”), Bonny has developed, marketed, and managed the implementation of customized insurance programs on behalf of a diverse clientele, which included the nation’s largest construction trade association. In this capacity, Bonny led and coordinated teams of actuarial, financial, accounting and legal professionals to support these activities.

Starting ten years ago, Bonny used these same skills as a platform to expand ICS’ business into the real estate industry, where she began providing full service building management, tenant relations, marketing and leasing service to corporate building owners. Perimeter Crossing, a five story, 115,000 sq. ft. office building in Atlanta’s North Central submarket was one of her primary asset management assignments. Her responsibilities at ICS also included identification of land and other real estate acquisitions and organizing the professional teams required for contract negotiations, project design and construction delivery.

Bonny’s responsibilities with Site Services Group, LLC involve a continuation of what she has practiced in her own business for over twenty years. For Site Services clients, this means identifying great sites, matching them to the specific client needs, organizing all required support services and professionally closing the transaction. Bonny has extensive experience with a wide variety of land uses, including office, banking, residential, townhome, retail, hotel, resort and high-rise condominium properties.
